

LA 42 Two-stroke Racing Motorbike Oil

Description

LA RACING LUBRICANTS 2-STROKE RACING OIL is a complex blend of oils and additives which directly addresses the heat, pressure and friction of race engineered engines. These engines operate on the edge, yet engine reliability is critical. LA 2-STROKE RACING OIL does an outstanding job protecting high-performance engines. It adds durability that professional racing teams depend on and delivers confidence so engines can be pushed to the limit.

deposits that cause ring sticking, exhaust port blocking and pre-ignition

- Optimized for severe service

Viscosity Grade SAE	10W
Viscosity, 40°C, cSt	77.47
Viscosity, 100°C, cSt	9.63

Excellent Lubricity and Film Strength

- Purpose-built for outstanding film strength and lubricity
- Engineered with carefully selected, higher-viscosity synthetic base oils to withstand the high heat and pressure common to high-performance and racing applications
- Provides an extra measure of protection against piston scuffing and bearing wear

Outstanding Cleanliness

- Formulated with clean-burning synthetic base oils and powerful high-temperature detergent additives for exceptional deposit control
- Prevents the power-robbing carbon
